ANOTHER TRUST ON THE RACK

TREASURER FLINT TELLS ABOUT THE BIG RUBBER MONOPOLY.

President of the Carnegie Company Says Good Armor Plate Cannot Be Made for \$240 a Ton.

NEW YORK, Feb. 16.-John E. Searles, secretary-treasurer of the American Sugar Refinery Company, to-day again told Chairman Lexow, of the legislative investigation committee, that he would not produce the books of the trust. In reply to the question, "Is it not true that the average price of the raw material, after the trust was formed, dropped .957 per cent, a pound while the charge of the refined increased .157 per cent. per pound?" Mr. Searles said, "Undoubtedly, sir." Mr. Searles contended that as the years preceding the trust were years of disaster in the sugar business, there could not be a fair basis of comparison placed in regard to the figures for the five years succeeding the formation of the trust. He denied that there was a seven-fold capitalization of the stock of the company.

At this point Senator Lexow said he thought it right that the statement made by Mr. Searles yesterday, in which he charged that investigations of the present kind drove capital out of the State instead of inviting it, should not go unchallenged. Therefore, he propounded a long question to Mr. Searles, but the latter adhered to the support of his statement of yesterday. In reply to another question, Mr. Searles said he could see no reason why the State should interfere with the business of the American Sugar Refinery Company and in the same breath intimate that there were a number of companies and monopolies in this city that had no legal right to exist. "Have you given the matter of producing the books of the company any further thought, Mr. Searles?" asked Senator

"I have not," was the reply. "Then your answer stands the same as yesterday?

'Yes, str. Senator Lexow then called attention to the statement of lawyer Edward M. Shepard, who promised to have the books in the possession of the committee last Friday. Lawyer Parsons disclaimed any knowledge of Mr. Shepard's promise, but said he could answer authoritatively after the directors' meeting to-morrow. The committee, conferred, and Senator Lexow said he would wait until Thursday before taking decisive

Senator McCarron said to Mr. Searles: "I want to put a hypothetical question, Suppose that the fifteen companies forming the trust had not been consolidated, what would the price of sugar be to the consumers?" 'It would be dearer by about half a cent a pound," responded the witness, who added that as much labor is employed per ton of output now as before the consolida-

Senator Lexow wanted the figures in that respect, and Mr. Parsons, speaking for the witness, said he would request Mr. Havemeyer to produce the desired data, whereupon Senator Lexow interposed inquiring-"Perhaps they were destroyed? In reply to Senator McCarron the witness said the price of sugar per pound in 1883 was 8.55c; in 1884, 6.81c; in 1887, 6.04c; in

1888, 7.15c; in 1889, 7.80c; in 1890, 6.24c, and at present is 4 cents a pound. Mr. Searles said the company he represented was not a philanthropic institution and had always endeavored to supply the consumer with sugar at the smallest possible margin of profit to the American Sugar Refinery Company. A 10 per cent. increase the organization of the trust and so remained to this day. This concluded Mr.

Searles's examination for to-day, Lawson N. Fuller was recalled. The essential portion of his testimony was in the statement that the refineries before the advent of the trust gave employment to 25,000 were discharged after the consolidation. "We will now take up the United States Rubber Company." said Chairman Lexow, and Charles R. Flint, on being sworn, took the stand. He said he was treasurer of board of directors. He stated that the company was incorporated in 1892 with a capital of \$50,000,000 under the laws of New Jersey. In reply to Senator Lexow witness said that the Rubber Trust purchased the plant of the New Brunswick Rubber Company in the fall of 1892 for \$2,000,000. Later \$22,000,000 was expended in the purchase of the fol-lowing properties: The Wycoming Rubber Company, the Meyer Rubber Company of Milltown. N. J., the Elcan Candee Company of New Haven, the Goodyear Metallic Rub-ber Shoe Company, the National Rubber Company of Bristol, R. I., the Boston Rubber Company of Franklin, the American Rubber Company of Cambridge, Mass., and the Rubber Manufacturing and Selling Company at Colchester. In 1893 the Woonsocket Rubber Company and the Marble Rubber Company, of Woonsocket, were ac-

Senator Lexow said he had knowledge to the effect that four, instead of two, acquisitions had been made in 1893, and the witness then recalled that in addition to the two already named the Lawrence Felting Rubber Company and the Hammond Buckle Rubber Company had been acquired at the same time.

"What is the total capitalization of all these concerns acquired? "About \$40,000,000." With the acquisition of the four concerns the United States Rubber Company in 1893, witness said, the average output of the company was from 6) to 65 per cent, of the total product in the United States. The number of stockholders had increased from three hundred to three thousand, and an equal number of preferred stockholders. "Since the organization it has been our endeavor to earn all the money we lawfully can for our six thousand stockholders," he said. "The preferred stock is noncumulative." The witness said that in issuing stock certificates for the \$12,000,000 he merely carried out the instructions of the board of directors. "How many of the amalgamated con-

cerns have permanently closed?" Three-the Colchester Rubber Company, the Franklin Rubber Company and the Para Rubber Company. Now, will you swear that the element of shutting off competition was not considered when the \$12,000,000 worth of stock was issued?

"That may have been one of the eletaken ustil 10 o'clock to-morrow, when Mr. Flint's examinat! will be resumed.

PRICE IS TOO LOW. Mr. Leishman Says Good Armor Plate

Cannot Be Made for \$240. PITTSBURG, Feb. 16.-In speaking of the bill introduced in Congress yesterday by exceeding \$200 per ton. President Leishman, of the Carnegie Company, which is now \$500 per ton, said: "You can state that no alarm is felt over the introduction of the resolution by the Carnegie Steel Company. The idea of the government requiring any concern to make armor plate suitable for war ships at \$240 per ton, or of any company being able to accept such a proposition, is absurd. Any concern which cares to go into the manufacture of armor plate is certainly at liberty to do so, but they cannot make an article that will satisfy the requirements of the government at the price mentioned. A house can be erected for \$500. but a mansion will cost \$50,000. So it is with armor plate. We can make it for \$240 per ton, but it would not be the armor plate that the government would want, nor would it answer the purpose for war vessels. For that reason it is absurd for the government

to try and fix one price." What Mr. Foote Says.

CHICAGO, Feb. 16 .- Vice President Charles H. Foote, of the Illinois Steel Company, says that if Congressman Lorimer's bill becomes a law and the Illinois Steel | sale

Company were successful in getting a twenty-year contract from the United States government, the company would at once enter on the construction of a \$3,500,000 plant and would have it ready for the turning out of armor plate within a year. Such a plant would give employment to between 2,000 and 2,500 men.

Head of the Sisters of Charity Celebrates Her Golden Jubilee.

NEW YORK, Feb. 16 .- The golden jubilee of Mother Mary Xavier, head of the order Sisters of Charity of the Catholic Church, began this morning in St. Elizabeth's Academy, the home of the order, at Convent Station, N. J. There are about seven hun- CRUELTY AT REFORM SCHOOL dred sisters in the order. For several days they have been gathering to participate in the celebration, and most of them were present to-day. It is the first time in the history of the order that all have been summoned to their home at the same time. The interior of the big building was draped throughout in white and gold, the colors of the academy.

This morning the sisters gathered in the main study hall. Mother Mary Xavier, Expert Earnest Reports Defalcations seated on a dais, received their congratulations and blessed them, after which all united in singing the favorite hymn of the mother. Sister Theresa, the first nun who took the veil under the mother, read an address, to which the latter replied, and then presented cach sister with a souvening medal. Following the reception mass was celebrated in the chapel, which was also beautifully decorated. A banquet was served late in the large dining hall to the visiting clergy, the sisters occupying an adjoining dining room. After the banquet the issemblage went to the study hall, where Rev. Special to the Indianapolis Journal. Of this sum, ex-Treasurer Fair is short about \$12,000; ex-Auditor Coffinberry, who committed suicide, \$5,400; ex-Clerk Moody, \$2,700. Several others are known to be short, but their names are not yet made public. The news has caused a commotion among some of the ringleaders of the gang of official robbers in this What has been said would not warrant printing the names, but it is being talked about all over the county. penly charged that another ex-official of he county is short \$4,500, and several others are said to be defaulters for from \$1,000 to \$3,000. The financial aspect of the county is deplorable. Sheriff Stroh has been wrongfully charged with crookedness, and instead of him being ahead of the county, the facts are that the county owes him about the same amount which he is charged with having overdrawn. Mr. Stroh is serving his econd term, having been elected by the Republicans. The taxpayers are not expected to be benefitted much by the inestigation, as it is stated that no indict ments will be prosecuted. Business men are publicly demanding to know why was the grand jury paid \$300, the expert accountant everal hundred dollars more, and Assistant Prosecutor F. L. Roby \$340 more, and all the costs besides, if the investigation is to come to nothing. Taxpayers were congratulating themselves that the taxes would be less in the future if honesty could be enforced, but there is a large sum to be idded, and if reports be true, there is a deermination to whitewash the criminals. There is much complaint about the size of he attorney's fees allowed during the presnt hard times, and there is a wide margin etween such fees and the income of the ommon herd. Some of the citizens say it s legalized stealing because an attorney an charge and collect such large sams, while others blame the court for approving he bills. Attorneys in this county are reeiving fees of \$50 for \$10 jobs, and for cases hat really belong to the prosecuting atorney. The taxes are higher this year than ver before, and recent developments prove hat the condition of affairs in De Kalb ounty has been brought by downright robery. The people of this county are getting lesperate and they will not endure much nore oppression without open rebellion.

Dora Ogden, manager of the Western Union Telegraph office at Columbus, has secured a patent on an improved electric battery zinc which is quite an improvement over the zincs now in use, being less expensive and more serviceable. David Reed's estate was offered for sale at the Bedford courthouse yesterday. It

consisted in an interest in the Oolitic Stone

Company at Clearcreek Station and mills

at Seeds. F. D. Norton, of Bedford, bid in the entire property at \$16,750. The forty-acre farm south of Bedford was not sold.
